"Cottage life" has always played an important role in Marilyn's personal history. From her early beginnings she spent her summers in the Haliburton area. After meeting her husband Greg, cottage life shifted east to Muskoka where in 1990 Marilyn and Greg purchased their first cottage on Lake Rosseau.

Muskoka captured the very heart and soul of Marilyn. In 1996, after enjoying a very successful career in the hospitality industry in Toronto, Marilyn and her husband and children made Muskoka their home and Marilyn's real estate career began. Her first endeavors were with ClubLink Properties in the position of Director of Sales and Marketing as they established and developed The Resort Villas at the Lake Joseph Club. In 1999 Marilyn joined Chestnut Park Real Estate in their Port Carling Office, and branched into the recreational re-sale market and has been an Award Winning agent and top producer ever since.

Marilyn believes the key, to her successful client relationships, lies in her ability to listen to her clients in order to determine their wants and needs, their goals and objectives, their dreams and ideas. Marilyn guides her clients through the process, whether they are buyers or sellers, and guides her clients as they make their own, well informed, decisions.

Marilyn's real estate philosophy is based on being able;

- To provide a personal service to her clients with emphasis on integrity, discretion, knowledge, humour and enthusiasm;
- To listen carefully to her clients';
- To negotiate successfully the best possible terms and conditions for her clients;
- To be prepared and well organized and pay attention to details

Muskoka is truly a magical place year round. From the hustle and bustle of the busy summer months, to the peace and solitude of the winter months, each season is a treasured gift. Let Marilyn help you find your piece of Muskoka magic.
